

# Further Your Career

## Join the US Army Corps of Engineers Little Rock District

### USACE Vision

Engineering solutions for our Nation's toughest challenges.

### USACE Mission

Deliver vital public and military engineering services; partnering in peace and war to strengthen our Nation's security, energize the economy and reduce risks from disasters.

### Operations Division

- Serves as the principal mechanic or technical lead at a large lock & dam site.
- Implements & maintains a site-specific program of scheduled inspections, test operations, preventive maintenance, & planned or unplanned emergency repair and replacement of a wide variety of electrical, electronic, hydraulics, & mechanically interrelated/interlocking facility equipment & controls.
- Independently schedules day to day maintenance & repair work.
- Participates in short- & long-term preventive maintenance & repair work/replacement planning.
- Performs the most complex troubleshooting, diagnostic maintenance inspection & repair work.
- Provides technical direction to other full-time & seasonal lower-grade personnel assigned to assist in the accomplishment of repair & maintenance work.
